10.43	Paul Boquiren	February 12, 2024	Added 323 -NGX Physical Environmental

Supported Market Types across ICE APIs

This document lists all the market types that are supported on the following ICE APIs:

FIX Order Routing (FIX OR), FIX Trade Capture (FIX TC), FIX Private Order Feed (FIX POF), iMPact Pricefeed and iMPact Multicast

FIX OR and iMPact API currently supports most of the markets that are clearable (including the cleared side of markets marked as "Both" under 'Cleared or Bilateral' column below).

This color indicates new changes.

For markets marked "Both", prices are disseminated only for the cleared trades for the iMPact Pricefeed.

Please note that even if a market type is shown to be supporting a certain feature (e.g., GTC, Stop orders) in the table below, not all contracts/markets under that market type may actually support it.

You may contact the 24 hour ICE Helpdesk, or log a support ticket at <https://service.ice.com> for any questions regarding the contracts/markets supporting the desired feature under a given market type.
